

**For Starting . . .**

**HOLDS and DRIVES IN ONE OPERATION**

**For Removing . . .**

**HOLDS NUT or HEX SCREW  
AUTOMATICALLY . . . WILL NOT DROP!**

No more fussing or fumbling with small nuts or hex screws. The IRC *Tension-Grip* Nut Driver is ideal for close work in television or radio servicing. The *Tension-Grip* nut holding device is a tempered steel band that grips the nut or hexagon head screw as it enters the socket; it will not drop it! The *Tension-Grip* has a spring action and is non-magnetic; handles brass and stainless steel nuts as well as all regular types. Nut Driver shaft is drilled to a depth of 1 1/4", and securely set in a shock-proof plastic handle.
